STATEMENT OF HARDSHIP

CV22- 049

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A. Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Statement of Hardship

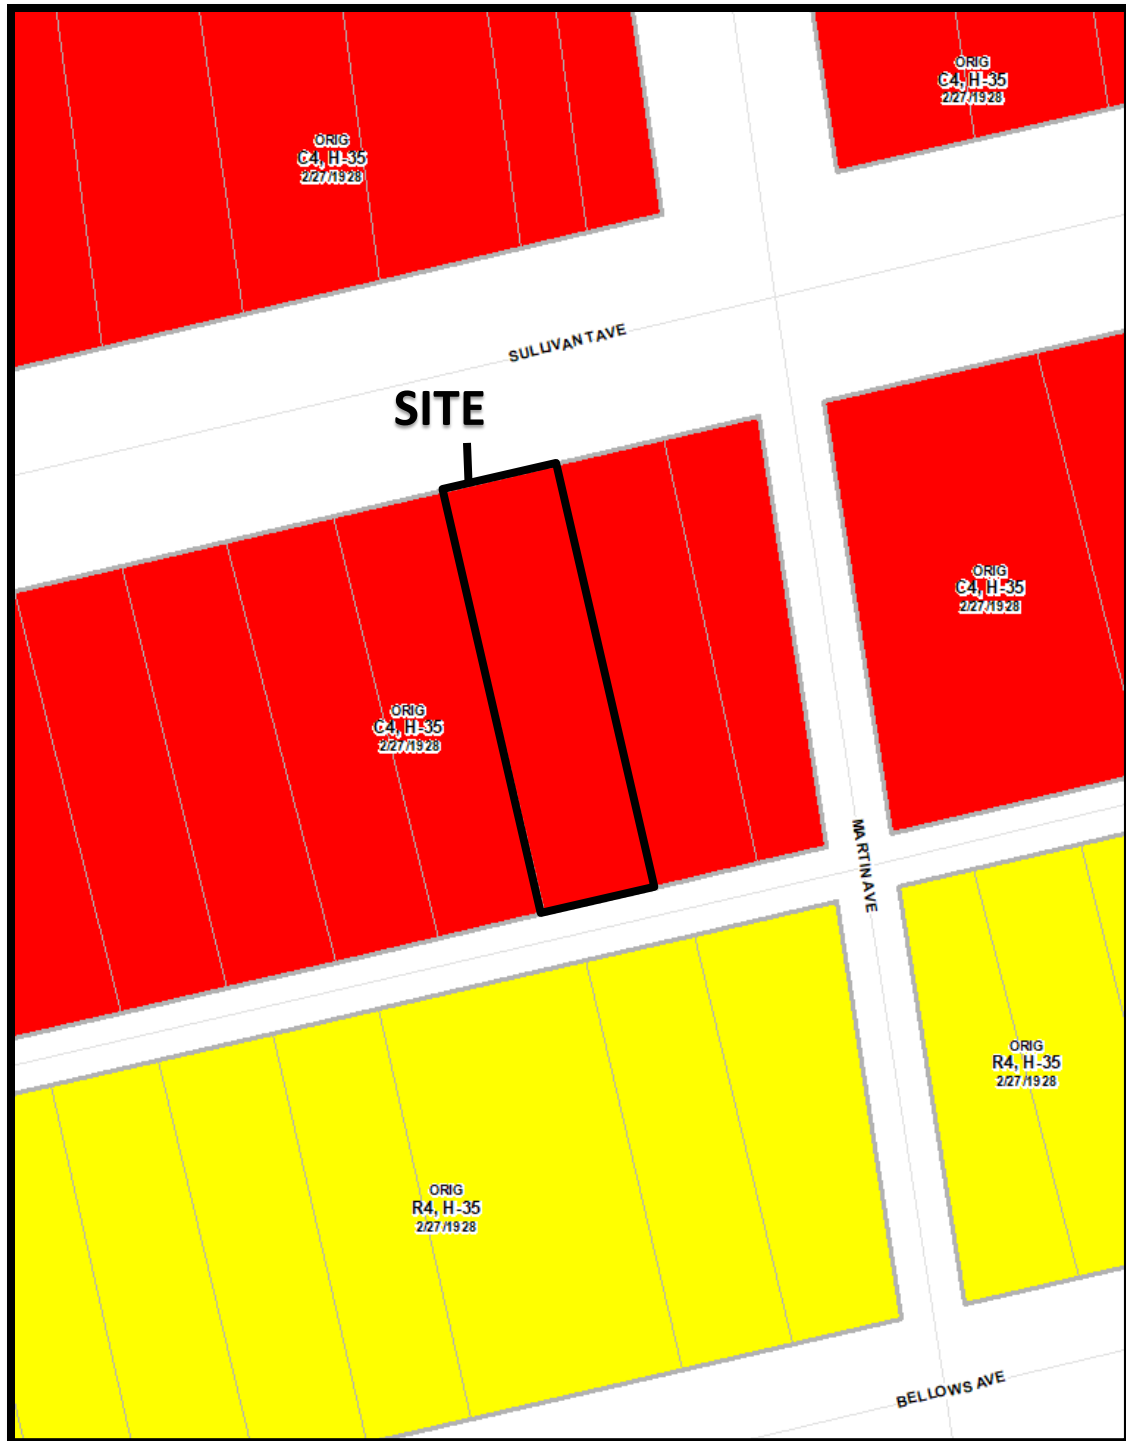

CV22-049, 899 Sullivant Avenue, Columbus, OH 43223

The 0.09 +/- acre (3,782 SF) site (PID: 010-012783) is located on the south side of Sullivant Avenue, 280 +/- feet east of Hawkes Avenue and is zoned C-4, Commercial. The site consists of one (1) platted lot (Lot 74, Osborn Place Subdivision PB 4, Page 364, 1900). The former existing single-family dwelling was razed due to fire. Applicant proposes to build a new detached single family dwelling. There are many residential uses, including single family dwellings, for many blocks of Sullivant Avenue in both directions. The proposed use is consistent with historical and existing land use on Sullivant Avenue.

Applicant has a hardship and practical difficulty with compliance with the cited Zoning Code sections given existing and historical residential use of Sullivant Avenue.

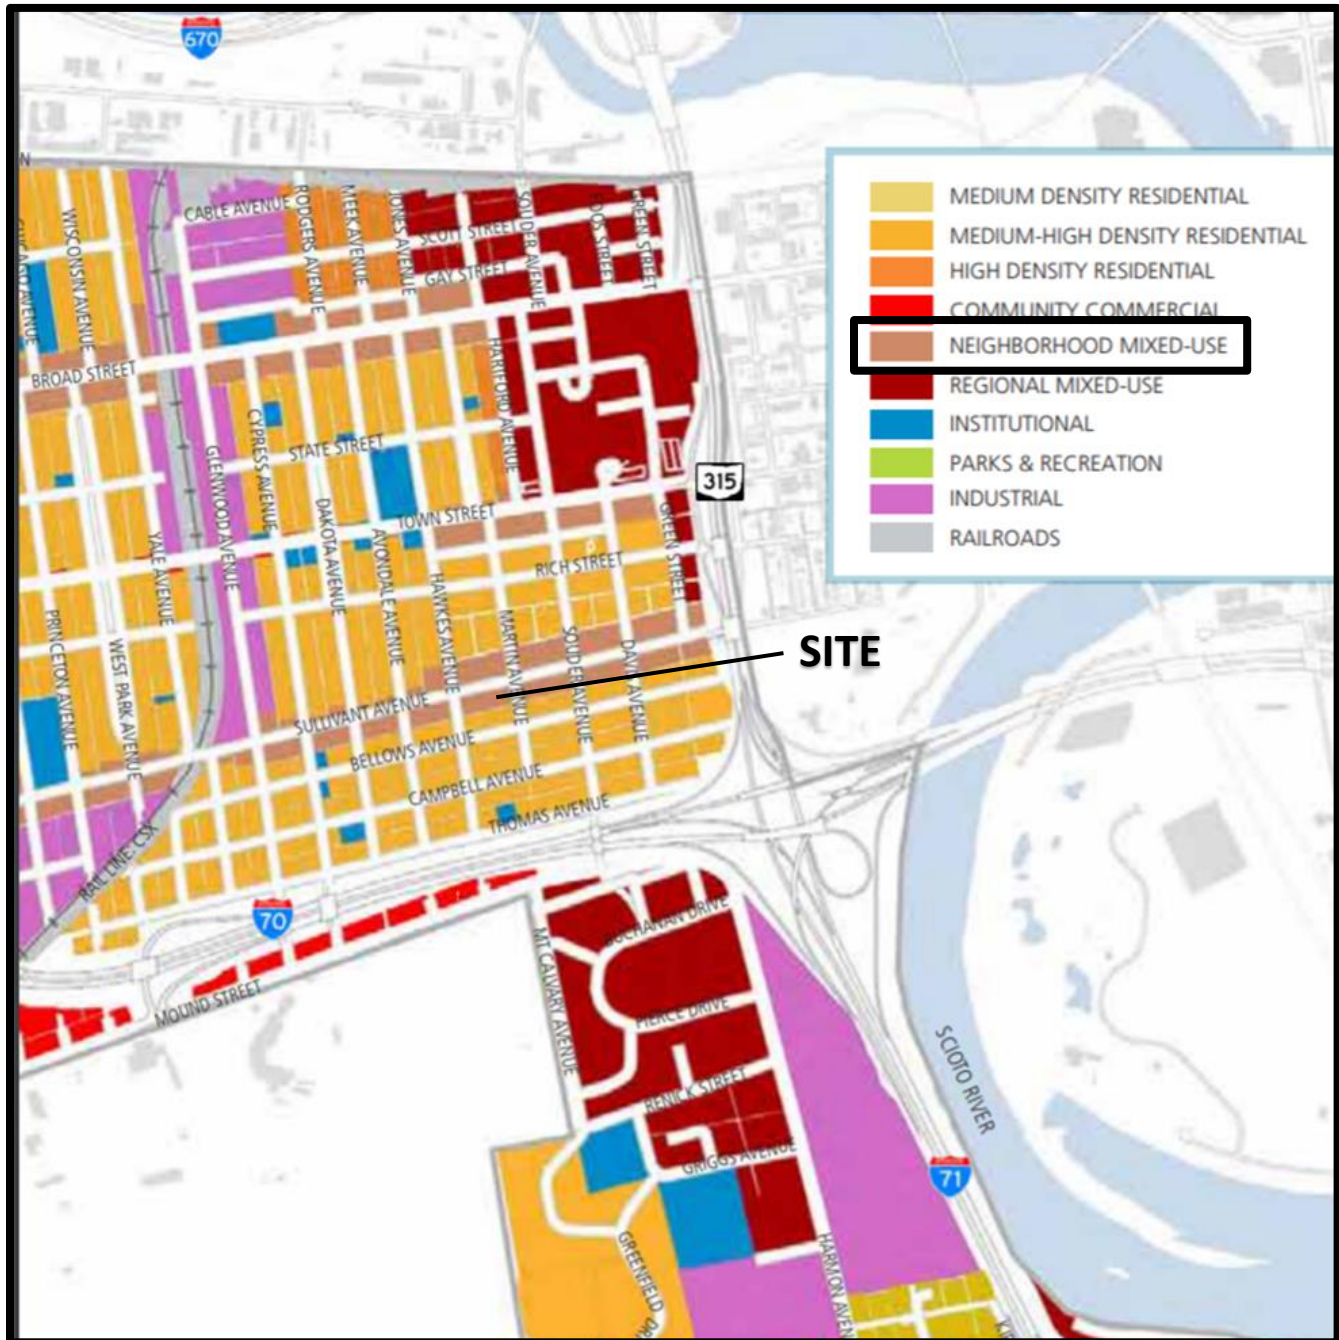

Applicant requests variances from the following sections of the Columbus Zoning Code:

Section 3356.03, C-4 Permitted Uses, to permit a new detached single family dwelling.
