Council Variance Application: CV22-029

APPLICANT: Avenue Partners; c/o Dave Perry, Agent; David Perry Company, Inc.; 411 East Town Street, 1st Floor; Columbus, OH 43215; and Donald Plank, Atty.; Plank Law Firm; 411 East Town Street, 2nd Floor; Columbus, OH 43215.

PROPOSED USE: Multi-unit residential development.

WEST SCIOTO AREA COMMISSION RECOMMENDATION: Disapproval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The applicant has received a recommendation of approval from Staff and from the Development Commission for a concurrent rezoning request (Ordinance #3414-2022; Z22-022) to the AR-2, Apartment Residential District to permit a multi-unit residential development. The requested Council variance will permit a 205-unit apartment complex. Variances for reduced landscaping and screening, parking setbacks, parking spaces, vision clearance, building setback lines, perimeter yard, and to reduce the minimum number of required parking spaces from 308 required to 306 provided spaces are included in the request. Staff supports the proposal as the site plan provides additional landscaping for the parking area fronting Trabue Road, mitigating the visual impact from the roadway. Additionally, the pedestrian pathway connecting to Mapleway Drive creates an improved pedestrian environment, consistent with *Columbus Citywide Planning Policies* (C2P2) Design Guidelines (2018).

To grant a Variance from the provisions of Sections 3312.21(A)(2)&(D)(1), Landscaping and screening; 3312.27, Parking setback line; 3312.29, Parking space; 3312.49 Minimum numbers of parking spaces required; 3321.05(B)(2), Vision clearance; 3333.18, Building lines; and 3333.255, Perimeter yard, of the Columbus City Codes; for the property located at **3670 TRABUE RD. (43204)**, to permit reduced development standards for a multi-unit residential development in the AR -2, Apartment Residential District (Council Variance #CV22-029).

WHEREAS, by application #CV22-029, the owner of property at **3670 TRABUE RD. (43204)**, is requesting a Council variance to permit reduced development standards for a multi-unit residential development in the AR-2, Apartment Residential District; and

WHEREAS, Sections 3312.21(A)(2)&(D)(1), Landscaping and screening, requires that interior parking lot trees shall be planted in landscaped islands or peninsulas containing a minimum soil area of 145 square feet per tree, and requires that screening be provided for parking lots located within 80 feet of residentially zoned property within a landscaped area at least four feet in width, while the applicant proposes to reduce the minimum soil area for three tree islands containing two trees each from 290 square feet to 286 square feet (143 square feet per tree), 230 square feet (115 square feet per tree), and 173 square feet (86.5 square feet per tree) with a soil radius of three feet; to reduce one tree island containing one tree from 145 square feet to 134 square feet with a soil radius of 3 feet; and to reduce the landscaping buffer from 4 to 3 feet along the north property line, and

WHEREAS, Section 3312.27(3), Parking setback line, requires the parking setback line to be 25 feet, while the applicant proposes a setback of 4 feet along Trabue Road; and

WHEREAS, Section 3312.29, Parking space, requires the width of all parking spaces to be 9 feet wide and 18 feet in length, while the applicant proposes to reduce the length to 16 feet for 3 spaces, and to reduce the width to 8 feet for 10 spaces, as shown on the submitted site plan;

WHEREAS, Section 3312.49 Minimum numbers of parking spaces required, requires 1.5 parking spaces per dwelling unit, or 308 spaces for 205 units, while the applicant proposes a total of 306 parking spaces; and

WHEREAS, Section 3321.05(B)(2), Vision clearance, requires a clear vision triangle of 30 feet by 30 feet at the intersection of Trabue Road and Mapleway Drive, while the applicant proposes a reduced vision clearance triangle of 10 feet by 10 feet; and

WHEREAS, Section 3333.18, Building lines, requires a building setback line of 60 feet along the Trabue Road frontage, and 25 feet along the Mapleway Drive frontage, while the applicant proposes a reduced minimum building setback line of 5 feet along the Trabue Road frontage, and 10 feet along the Mapleway Drive frontage; and

WHEREAS, Section 3333.255, Perimeter yard, requires a perimeter yard of 25 feet, while the applicant proposes a reduced perimeter yard of 18 feet along the east property line, and zero feet along the north property line; and

WHEREAS, the West Scioto Area Commission recommends disapproval; and

WHEREAS, the City Departments recommend approval because the variance includes a commitment to a site plan demonstrating additional landscaping and pedestrian connectivity along Trabue Road, both of which are consistent with *Columbus Citywide Planning Policies (C2P2) Design Guidelines*; and

WHEREAS, this ordinance requires separate submission for all applicable permits and a Certificate of Occupancy for the proposed development; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at **3670 TRABUE RD. (43204)**, in using said property as desired; now, therefore:
