STATEMENT OF HARDSHIP

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A.** Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B.** Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Healthy Homes

Statement in Support of Variance(s)

The site is located on Republic Avenue, East of Cleveland Avenue on the corner of Republic Ave and Dresden St. The parcel is zoned R-3, as is much of the North Linden Area Commission area. The applicant proposes to build a two (2) unit dwelling (duplex) and four surface parking spaces at the rear of the lot with parking accessed from the back alley, as depicted on the submitted site plan. The width of the lot is existing and does not meet the requirement under Section 3332.05. The lot width is like other parcels in the area. Additionally, the applicant proposes a reduced parking setback and building line setback from the east property line. This will allow more backyard space and will not block view as it the parking is a surface lot.

The proposed two-unit dwelling was intentionally selected and will not detract from the character of the neighborhood. This structure conforms with other development in the area in respects to height and use. The proposed dwelling is intended to increase the stock of high-quality, affordable housing options available to families earning between 50 and 80 percent of Area Median Income.

Applicant requests the following variances:

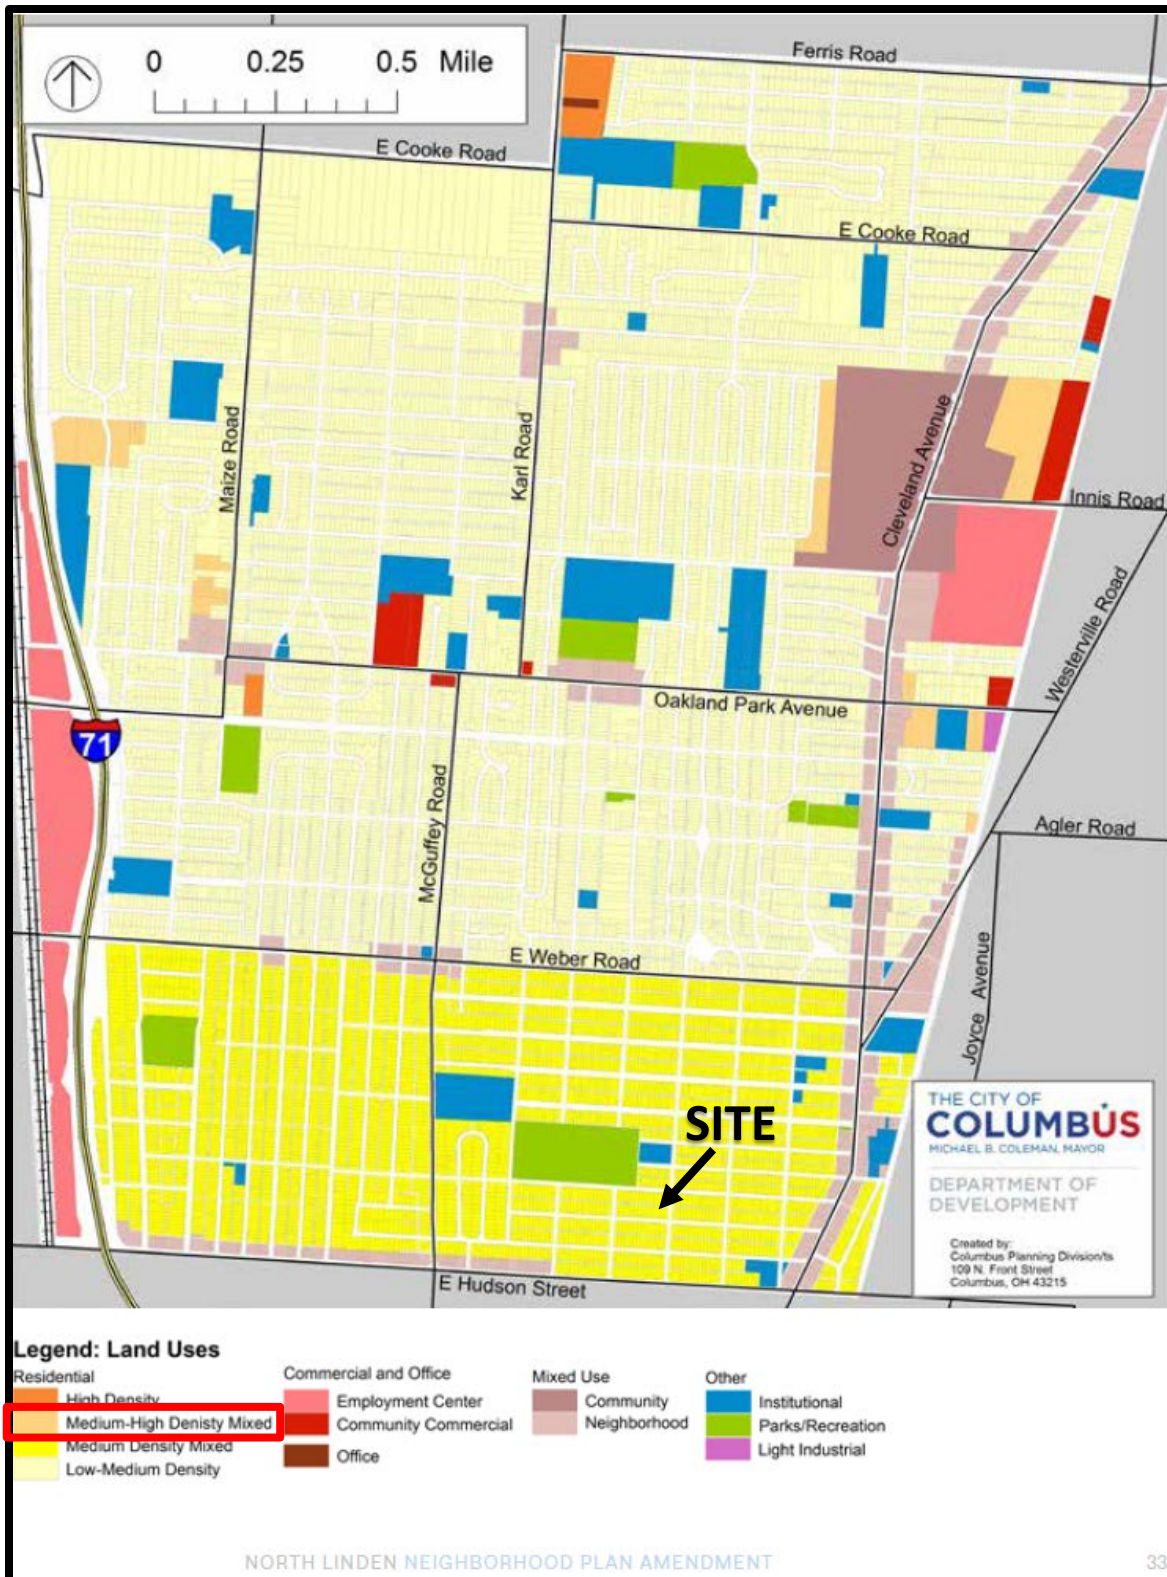

1. **Section 3332.035:** R-3 Residential District, to permit a 2-unit dwelling building as depicted on the site plan.
2. **Section 3332.05:** Area District Lot Width Requirements, to reduce the lot width from 50 feet to 40.63' feet (*existing*).
3. **Section 3332.27:** Reduced Parking Setback Requirements, to reduce the parking set back from the required 10 feet to 2.31 feet.
4. **Section 3332.22:** Variance to Building line from east property line/street right of way line to reduce from 8.2" to 5.31"
