UCL, Inc.
2025 Stapleton Ct., Cincinnati, OH 45240
Pete Kontopos, President, (513) 674-1666, unitedpainting@fuse.net
Katerina Kontopos, Secy, Treas.

- 5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

Work consists of: blasting and coating interior wet and dry areas of a one-million gallon capacity hydropillar elevated storage tank. Other work includes performing touch ups to tank exterior, installing ice guards on roof, installing a new frost-free vent, and other such work as may be necessary to complete the contract, and other such work as may be necessary to complete the contract, in accordance with the technical specifications, and City of Columbus Construction and Material Specifications as set forth in the Invitation For Bid (IFB).

Community planning area: "Rocky Fork/Blacklick"

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Contract work is required to be completed in a manner acceptable to the City within 100 days from the date that a Notice To Proceed (NTP) is given by the City. The City anticipates issuing a Notice to Proceed on or about June 1, 2018.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

There are currently 37 water tanks in the distribution system and 25 of them are maintained by the City of Columbus, Division of Water. To keep these tanks in optimal condition, each year tank interiors or exteriors are identified to be recoated.

The Ulry tank interior dry and wet areas need to be recoated at this time. The tank will be industrial blasted to bare metal and recoated. Safety at the tank site will be improved with the addition of full-circumference guards on the tank roof. These guards will reduce the risk of large ice sheets falling from the tank roof. These improvements will keep these tanks in optimal condition and prolong its service life.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The bid amount and proposed award amount is \$ \$710,228.50, including a 15% construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$710,228.50
Future Anticipated Needs	\$ 0.00
CONTRACT TOTAL	\$710,228.50
