Scope of Work

- equivant will provide project management services to schedule and coordinate the work to be performed by CJS.
- equivant will provide design, develop and quality assurance testing services to enhance JusticeFiling to create a scrolling region for the Party Address section. Add function: add a new scrolling region of the Party Address section to capture the additional address. Delete function: will remove additional addresses. If only one address and the delete function is used, the address fields - including phone number and email - will clear.

Notes

- 1 Quotation must be signed and returned with a purchase order to schedule project.
- 2 CJS has made this estimate based upon the functional description provided in the enhancement request, should the functionality requested expand beyond the scope of the current scope of work a change order will be processed to adjust the level of effort and cost required to include the additional functionality.
- 3 Professional Services are quoted at a firm fixed price.
- 5 If project is cancelled prior to completion, all costs related to effort expended through the date of cancellation will be due and payable.
- 6 CJS will invoice for the Professional Services fees as follows:
 - CJS will invoice for Project Management services at the end of the first month in which project management services are provided.
 - CJS will invoice for Specification Development services at the end of the month in which the Specification is provided to the Customer for review.
 - CJS will invoice for Development and Quality Assurance Services at the end of the month that the CourtView Release is available for deployment in to the Customer's environment.
- 7 Payment term is net 30 days from invoice date.
- 8 Customer will make available all resources requested by CJS for assistance.
- 9 Delays caused by Customer site or configuration issues may require rescheduling and/or Change Order for additional services and related travel
- 10 CJS assumes no more than one Customer review cycle of the Specification (Item 1.2). A cycle being the provision of the specification by CJS, the review and comment by the Customer, modification made to the specification by CJS. Should additional review cycles be required, they will be invoiced on a T&M basis in addition to the quoted amount shown.
- 11 Customer is responsible for the host environment including all required licenses, hardware, SSL certificates, network and third party software components and configuration as well as providing remote access to the application to CJS staff.
- 12 Unless otherwise specified in this quotation, all enhancements to CourtView are made to the most current CourtView Release under development at the time that work is scheduled by CJS and not to the CourtView Release currently installed in the Customer's environment.
- 13 All services are to be provided remotely. Should travel be requested or deemed to be required, a separate Change Order for estimated travel
- 14 In order for this work to be included in JusticeFiling Release 1.25, the signed quotation must be received by 05/18/2017.
