

Information to be included in all Legislation authorizing entering into a Contract:

1. **The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.**

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>City/State</u>	<u>Status</u>
HDR Engineering, Inc.	47-0680568 – 8/13/16	Columbus, OH	MAJ
ms consultants, Inc.	34-6546916 – 3/7/16	Columbus, OH	MAJ
Prime AE Group, Inc.	26-0546656 – 2/5/16	Columbus, OH	ASN

2. **What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Requests for Proposals (RFP's) were received October 3, 2014.

3. **List the ranking and order of all bidders.**

1. HDR Engineering, Inc.
2. ms consultants, Inc.
3. Prime AE Group, Inc.

4. **Complete address, contact name and phone number for the successful bidder only.**

HDR Engineering, Inc.
2800 Corporate Exchange Drive, Suite 100
Columbus, Ohio 43231
Jennifer Frommer, P.E., Vice President, (614) 839-5772, Jennifer.Frommer@hdrinc.com

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

The purpose of this project is to construct necessary improvements to the water distribution system in the Maize Road area, east of I-71 between Morse Road and E. Cooke Road. There are also two water lines being replaced along bridge crossings near Goodale Avenue and I-670E. The community planning areas that include this work are the "Downtown" (for bridge crossings) and "North Linden" areas (all other sites). The improvements identified in the scope of work will replace or rehabilitate water lines that have high break histories and require frequent maintenance. This project includes replacing or rehabilitating approximately 14,100 linear feet of 6-inch, 8-inch, and 12-inch water lines within the project area.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The duration of the design phase for this project is 12 months. Part of the Engineer's contract is to provide Record Drawings after the construction of this project. Therefore, the contract completion date cannot be determined at this time.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The goal of this project is to replace or rehabilitate the existing 6-inch and 8-inch water lines that have a high break frequency. Replacement of these water lines will decrease burden on water maintenance operations and improve water service for area customers. The new lines

constructed under this project should eliminate the pattern of frequent water line breaks and reduce water loss.

The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**
\$250,089.47
