This project is required due to the ODOT roadway improvement project. The ODOT project is installing storm sewers for additional drainage that impact the existing water main along West Broad Street. The proposed main will eliminate this conflict with the ODOT project. Throughout the design phase of the project, we coordinated with ODOT, the Franklin County Engineer's Office, and the property owners in the area. During construction the contractor and the DOPW Project Manager will coordinate with the area businesses to perform the necessary work and maintain water service.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**
