This project will address improvement needs for long term maintenance and safe operation of Hoover Dam water supply controls. The Hoover Dam is part of a system of dams that provides water for the City of Columbus Hap Cremean Water Plant, which serves more than 600,000 customers. Management of the City's reservoirs and dams is crucial for reliability of the water supply, long-term water supply planning, and economic development of the central Ohio area. Completion of this project will implement improvements identified during an evaluation and condition assessment conducted as part of the Ohio Department of Natural Resources requirements for Class I dams.

There will be no public meetings held regarding this project. Hoover Dam is critical infrastructure and the project will be managed accordingly. The Division of Water will be responsible for coordinating with stakeholders.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The bid amount and proposed award amount is \$15,381,250.00, including a 15% construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$15,381,250.00
Future Anticipated Needs	\$ 0.00
CONTRACT TOTAL	\$15,381,250.00
