2. Fishel Company	\$387,273.14
3. Thayer Power & Communication Line Construction Co.	\$409,132.05
4. Jess Howard Electric Co.	\$504,941.99

4. **Complete address, contact name and phone number for the successful bidder only.**

Gudenkauf Corporation
 2679 Mckinley Ave.
 Columbus, Ohio 43204
 Sidney J. Hale (614) 488-1776, shale@gudenkauf.com

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

Furnishing of all materials, equipment, and labor necessary to provide for the removal of existing equipment, install new equipment, adjust and put into satisfactory operation, all of the work specified and shown to form complete and operational facilities. The new equipment and facilities shall consist of approximately 4.5 mi. of 288 strand and .38 mi. of 48 strand aerial fiber optic cable on existing AEP and MELP poles. Also, approximately .34 mi. of 2-4" HDPE conduit to be installed via Horizontal Directional Drilling method along with associated hardware.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Work under this contract shall be completed within 180 calendar days after the NTP is issued.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

This project will facilitate the upgrades from an antiquated unreliable T1 data line with the installation of an efficient, reliable Fiber Optic Line (FOL). This new FOL will increase bandwidth (data transfer rate) which will allow the proper function of present work stations and the expansion of other technology's that will increase the speed of data transfer, employee productivity, and system reliability to water plant operations. In addition, the new FOL will facilitate increased security to remote collector well sites by implementing video links in the future.

The PAWP is an essential and integral component in the Columbus area water supply and treatment infrastructure. Adequate safe supply of water is essential to economic growth and development.

Public informational meetings are not anticipated for this project.

The new fiber optic line will be installed on the existing utility poles. There are no other environmental factors related to this project.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

\$315,653.94 – construction contract with Gudenkauf Corporation
