

NEAC

I want to continue to serve and give back to the near east side as district 2 commissioner. My year on NEAC has allowed me to develop leadership and organization skills that I want to continue to expand as we grow the Community Engagement Committee. I want to continue to develop the processes NEAC uses to ensure we are giving a voice to near east side residents. And continue to help NEAC give back by helping our residents maintain and grow a sense of community. I feel like I've just gotten my feet wet during this year filling a vacant seat and I'm excited to use what I've learned in an even more meaningful way for the next 3 years.
