City of Columbus
4252 Groves Road
Columbus, OH 43232

Re: Single Source Certification - 2025-75036

Dear Mr. Dixon:

Currently the City of Columbus has Intergraph Software in use as well as interfaces to third party applications within a Computer Aided Dispatch (CAD) system. As the manufacturer of the software products, Intergraph Corporation, through its Hexagon Safety, Infrastructure & Geospatial division provides unique value in supporting the elements of the software directly provided by Intergraph and only Intergraph directly may provide the maintenance and support services for these products set forth within Quote 2025-75036. No other vendor may offer substitute maintenance services for the set of products currently in use as Intergraph owns the intellectual property and source code incorporated into Intergraph products.

Should you have any questions, or require additional information regarding these issues, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "William H. Starnes".

William H. Starnes
Divisional Counsel
Hexagon Safety, Infrastructure & Geospatial Division
