STATEMENT OF HARDSHIP

Chapter 3307 of the Columbus Zoning Code

Section 3307.10 Variances by City Council

A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.

B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance requested as detailed below:

Council Variance # CV15-025

The 10.174 acre site is part of Sub-Area 3 of Z84-138. The site is zoned CPD, Commercial Planned Development with all C-4 uses permitted. The site has two (2) commercial buildings totaling 98,000 +/- SF. Three (3) outlots on the N High Street frontage are developed with commercial uses. When the shopping center was developed, it was anchored by a Big Bear grocery store. After the grocery store closed (2004), there has been interim commercial occupancy, but the shopping center struggled. The current owner has made various site improvements and increased the occupancy rate of the center but, has been unable to attract a grocery store or other major retail anchor. By this application, applicant proposes to use up to 63,000 SF (foot print) of the existing east building for climate controlled self-storage. While self-storage is a use of the M district in the Columbus Zoning Code, the use is often associated with personal storage needs of residential uses, such as the many apartment complexes within a short distance of the site, as well as business storage needs, such as records retention. Applicant's storage use will be exclusively inside storage. No exterior building or site alterations related to the storage use are planned and there will be no outside storage. The site will continue to appear and function as a commercial shopping center. A hardship exists in that personal and business storage has evolved as a commercial use, and is an alternative use of properties, such as big box and other large retail uses, when the original designed retail use is no longer viable and, as in this case, the storage use is only for part of the property, in conjunction with commercial uses. At such time as a viable long term retail anchor is possible, the building area could be converted back to retail use. In conjunction with the Site Compliance Plan, applicant shall dedicate right of way totaling 50 feet from centerline along the Lazelle Road frontage of the site.

Applicant requests the following variance:

- 1) 3356.03, C-4, Permitted Uses, to permit storage as a primary use in a maximum of 63,000 SF of the existing east building (foot print), as depicted on the submitted site plan.
