A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

This project will provide for renovation and improvement of the final clarifiers in the "B-Plant", one of the two wet stream process trains at the plant. Similar improvements were made to the clarifiers of the "A-Plant." The project goal is to replace deteriorated equipment, and make improvements to process operation and control.

A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

It is estimated that Preliminary Design work will require 9 months for completion after the initiation of the contract. Completion of all design work and construction contract bidding is estimated to require 21 months after contract initiation. Project Construction is estimated to require 21 months for completion after construction contract award. Professional engineering services under the BBS Corporation contract would continue beyond the completion of construction for development of project "as-built" drawings, and for reporting on facility operation 1 year after initiation of operation.

An estimate of the full estimated cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

Original Contract	\$ 756,113
Modification No. 1	\$1,795,089
Modification No. 2	\$ 968,325
Proposed Modification No. 3	\$ 219,452
CURRENT PROPOSED TOTAL	\$3,738,979
Future Modification No. 4	\$ 135,000 (estimate for design services)
Future Modification No. 5	\$ 106,000 (estimate for services during const.)
EST. ADD'L NEEDS	\$ 241,000
EST. CONTRACT TOTAL	\$ 3,979,979
