

**Parsons Avenue Water Plant (PAWP) Collector Well Pump Replacement CW 101,104 & 115
CIP No. 690533-100002, TSS #870**

Information to be included in all Legislation authorizing entering into a Contract:

1. **The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.**

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>DAX#</u>	<u>City/State</u>	<u>Status</u>
Peterson Construction Co.	34-1342365 – 11/4/21	18675	Wapakoneta/OH	MAJ
Kokosing Industrial, Inc.	47-2946608 – 6/12/21	12309	Westerville/OH	MAJ

2. **What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Formal competitive bids were opened on June 10, 2020.

3. **List the ranking and order of all bidders.**

1. Peterson Construction Co. \$6,126,050.00
2. Kokosing Industrial, Inc. \$6,288,200.00

With **ALTERNATE** (Ref. Item #2):

1. Peterson Construction Co. \$5,896,050.00
2. Kokosing Industrial, Inc. \$5,943,200.00

4. **Complete address, contact name, phone number, and e-mail address for the successful bidder only.**

Peterson Construction Company
18817 S.R. 501 North, Wapakoneta, OH 45895
Donald J. Bergfeld, Presiden, (419) 941-2233, dbergfeld@petersonconstructionco.com
Contact: Greg Kemper, (419) 941-2233, gkemper@petersonconstructionco.com

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

This project will remove and replace three existing vertical turbine pumps at each of the existing Collector Wells-101, 104 and 115 including associated piping, valves, electric gear, control equipment, access hatches and related appurtenances. The existing pumps have not only reached but have extended well beyond their useful life expectancy.

The Parsons Avenue Water Plant is located in the 99 - Citywide planning area.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Contract work is required to be completed in a manner acceptable to the City within 1180 calendar days from the date of the Notice to Proceed (NTP).

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

This project will address aging water supply components which are beyond their useful life. The pumps and motors are more than 30 years old, and are showing significant corrosion and metal breakdown of the submerged portion of the pumps which have been rebuilt over the years. Failure of any of these components could result in reduced plant capacity, which could be critical during high demand periods.

Completion of the project will maintain customer reliability and improve pump performance, efficiency and capacity. Increased efficiency translates into increased energy savings and a reduction in maintenance costs.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The bid amount and proposed award amount (including Alternate) is \$5,896,050.00 including a 15% construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$ 5,896,050.00
Future Anticipated Needs	\$ <u>0.00</u>
CONTRACT TOTAL	\$ 5,896,050.00

*An additional \$2,000.00 will be encumbered for Prevailing Wage Services

**CA-CI will be provided by Hill International, Inc.
