I see the need for a comprehensive plan for the Southwest corridor of Columbus. I hope that we can work together with the other communities that surround our area and include our neighbors in Franklin Township, Jackson Township, Grove City, etc., in the creation of that plan.

I believe that we can work together to create a plan that focuses on the improvement of the area. A few suggestions:

- Cleaning up abandoned and foreclosed houses,
- Help address the air quality issues that effect health and well-being,
- Redirecting truck traffic to the patterns that produce the least intrusion in residential areas,
- Providing a safe place to work, live and play with improved park area and cultural and educational opportunities for all.

For the last fourteen years, I have worked in the field of social services helping people to navigate the system and teaching people how to take a stand, believe in self-worth, and improve their quality of living. Now it is my turn to do the same. I have learned the theory, now it's time to put my knowledge into practice.

This is not something I want to do but feel the need to do. In the past the Southwest corridor has not been given much attention regarding placement of community services. It is hard for an individual to take a stand. As a member of the community it is time to stand and be heard.
