Sir,

REMOTEC is the sole manufacturer and distributor for the ANDROS line of hazardous duty robots including the VA1-J, Wolverine, F6B, HDSEL and Titus robotic system and all related upgrades, radios, accessories, parts, refurbishment, service and training.

The ANDROS robots are in use by police departments and organizations in 26 countries. Some of these organizations include the U.S. military joint EOD forces, the Federal Bureau of Investigation and the U.S. Secret Service.

REMOTEC's ANDROS systems have a unique articulated track design, which is patented under U.S. Patent No. 4,746,977, Patent No. 4,923,831 and Patent No. 5,022,812. REMOTEC is the only manufacturer that offers the articulated track design.

REMOTEC does not have any product dealers or resellers within the United States. All parts are sold and all maintenance is performed directly from REMOTEC's facility located in Clinton, Tennessee. If you have any questions, please feel free to contact me at (865) 269-1232.

Sincerely,

*Jeremy Wallace*
