

Exhibit A:

Clean Fill Dump Contract Scope

The contractor will provide a site within Franklin County for the disposal of clean soil mixed with clean, hard fill excavated during the repair of underground water and sewer pipelines. The contractor shall be appropriately licensed and bonded in the State of Ohio to complete this task. Operation of the site must comply with all applicable local, state and federal regulations. The material will be trucked to the site by the City of Columbus. Costs (\$26.00 per truckload) are determined by number of truckloads, not by weight or volume of the soil or fill.
