The services to be performed under this agreement call for Madden Brothers Inc. to provide equipment and operator for grinding yard waste and wood waste, sizing and grinding logs, and for Storm Cleanup.

The City of Columbus has crews to chip brush and trees from storm damage on public right-of-way. In the event that a severe storm causes damage that exceeds the capacity of City crews to promptly cleanup, this contract allows for the vendor to be contacted to mobilize equipment and crews to chip brush and trees obstructing public streets and sidewalks and deliver those woodchips to the SW Compost Facility located at 7000 Jackson Pike, Lockbourne, Ohio. The vendor shall chip logs up to 15” diameter. Larger logs may be chipped. The vendor will be paid on the basis of tons of wood chips delivered to the SW Compost Facility only. Logs that can’t be chipped by the vendor’s crew will be sized and staged at the curb for pickup. For the purposes of storm cleanup the City has been divided into maintenance zones with specific boundaries. North zones include all zones in the areas of Roberts Outpost north of I-70; North Outpost; and the 25<sup>th</sup> Outpost. South zones include all zones in the areas of Roberts Outpost south of I-70; Central Outpost; and the Marion Outpost.
