G'Afternoon All,

Have you had the chance to review our request to increase purchase amounts? Also, we would like to increase the number of stone patchers we are purchasing with the bids that we just received from two to four in lieu of purchasing two pothole patchers this year. We would still trade in the same brass tag numbers.

Thanks, Jerry

G'Afternoon All,

Listed below are the vehicles that our Division plans to purchase with CIP funds this year along with the brass tag numbers are to be replaced. Of note, we currently have specifications approved by Fleet to proceed with the purchase of two 4-wheel sweepers and two tractors from 2010 funds. We would like to increase this number to eight sweepers and four tractors total. If Fleet approves of these increases please let me know via email.

Thanks, Jerry

Equipment

Section Number

R

Dump Truck - Single	SMO	6	TBD Thursday - We are doing a comprehensive inspection of all
