

# Fusion Alliance

## Statement of Work – City of Columbus

Fusion Alliance, LLC. will provide the following roles to deliver professional services:

- Data Program Manager (STS Product Name: Program Manager) to perform data program management services.
- Reference Architecture Program Manager (STS Product Name: Program Manager) to perform reference architecture program management services.

### Data Program Manager Services tasks:

- The Data Program Manager (Data Architect) will work with DoT to collaboratively lead the design, development and implementation of open-data data architectures for current city initiatives, including re-design of the city's current data architecture around an open-government platform and the Information Data Exchange (IDE) component of the Smart Columbus grant.
- Serve as a lead resource for the design of the city's open-data data architecture that will be used by the city and the Smart Columbus program.
- Coordinate design efforts with the city's staff, business, grant and information technology partners including among others: Smart Columbus Program Office, U.S. Department of Transportation, the Columbus Partnership, Amazon Web Services, IBM, and the Mid-Ohio Regional Planning Commission.
- Conduct research on various proprietary and open source technologies. Document, and present research summaries describing the advantages and disadvantages in terms of value-creation or cost-benefit to the city.

### Reference Architecture Program Manager Services tasks:

- The Reference Architecture Program Manager (Reference Architect) will work with DoT to collaboratively lead the design, development and implementation of open-data reference architectures for current city initiatives, including re-design of the city's current data architecture around an open-government platform and the Information Data Exchange (IDE) component of the Smart Columbus grant.
- Serve as a lead resource for the design of the city's open-data reference architecture that will be used by the city and the Smart Columbus program.
- Coordinate design efforts with the city's staff, business, grant and information technology partners including among others: Smart Columbus Program Office, U.S. Department of Transportation, the Columbus Partnership, Amazon Web Services, IBM, and the Mid-Ohio Regional Planning Commission.
- Conduct research on various proprietary and open source technologies. Document, and present research summaries describing the advantages and disadvantages in terms of value-creation or cost-benefit to the city.

### Terms

- Services will be performed as a time and materials addendum to the existing State Term Schedule 534175-2(STS) expiration date 6/30/2017 between Fusion Alliance LLC and the Ohio Department of Administrative Services.
- Travel expenses for the Reference Architecture Program Manager (Reference Architect) will be reimbursed by the city per the city's standard reimbursement policies.
- The Data Architect and Reference Architect will work with DoT's Smart Columbus project-team, and will report directly to the city's Director of Technology/CIO or his designee.
- The Data Architect and Reference Architect will each track and submit for approval by the city a weekly project time sheet prior to invoicing to the city.
