5. **A description of work performed to date as part of the contract and a full description of work to be performed during any future phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

Community Planning Area is 21-Far East. This contract will provide construction administration and management services including, construction inspection, construction and startup coordination, reporting, budgeting, scheduling, document tracking, and other related tasks to ensure the City receives a quality product in conformance with the Contract Documents for the Blacklick Creek Sanitary Interceptor Sewer (BCSIS).

6. **An updated contract timeline to contract completion.**

***For engineering agreements:**

a. **The original agreement allowed for a total term of how many years? (ex. 4 year term) 4.**

b. **Which year of the total term is this renewal for? (ex. year 2 of 4 year term). 3 of 4.**

c. **The expiration date of this agreement is July 2020.**

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The Blacklick Creek Interceptor Sewer will provide additional sewer service capacity to the rapidly expanding New Albany area, which will in turn generate additional sewer revenues. The project will also provide connection points for Jefferson Township to serve customers by gravity sewers, thereby allowing abandonment of several pump stations currently in operation.

8. **A description of any and all renewals to date including the amounts of each modification and the Contract Number associated with any modification to date. (List each modification separately.)**

Renewal #1: \$4,113,621.36 PO068769

9. **A full description of the work to be performed as part of the proposed contract renewal. (Indicating the work to be a logical extension of the contract is not sufficient explanation.)**

This planned contract renewal will continue to provide construction administration and management services including, construction inspection, construction and startup coordination, reporting, budgeting, scheduling, document tracking, and other related tasks to ensure the City receives a quality product in conformance with the Contract Documents for the Blacklick Creek Sanitary Interceptor Sewer (BCSIS).

10. **An explanation of why the work to be performed as part of the contract renewal cannot be bid out. (Indicating the work to be a logical extension of the contract is not sufficient explanation.)**

Re-bid of the project under will likely result in a higher project costs as much of the project history would be lost and required to be rediscovered by another consultant unless won by the same consultant. In such a case, we would have wasted significant time in acquiring and evaluating the new proposals without significant benefit.

11. **A cost summary to include the original contract amount, the cost of each renewal to date (list each renewal separately), the cost of the modification being requested in the legislation, the estimated cost of any future known modifications and a total estimate of the contract cost.**

Original Contract :	\$2,008,812.32	EL-017394
Previous Renewal:	\$4,113,621.36	PO068769
Current Renewal:	\$2,084,507.73	
Future Renewals:	\$1,738,280.16	
Total Contract:	\$9,945,221.57	

12. **An explanation of how the cost of the renewal was determined.**

The costs of this modification were determined by negotiations between Black & Veatch and DOSD.
