Dear Steve,

I have been involved in community work since 1985 when I organized the Indian Springs Blockwatch. Our blockwatch covered seven streets. I was instrumental in the placing of the speed control on East Schreyer Place. I hosted two meetings for the Neighborhood regarding more police in the Clintonville area due to a sharp increase in robberies, break-ins, and several fatalities. I ride frequently as an observer with Precinct 3 officers to keep abreast of problems developing in our area.

Being a resident of Clintonville since 1957, my wife and I have raised two Children, maintained fulltime jobs, and still had time for neighborhood involvement. Also, from 1979-1988, I was president of two local Bass clubs involved with Community projects and working with local youth.
