STATEMENT OF HARDSHIP

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A. Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Statement of Hardship

Property Address: 1659 Franklin Park S, Columbus, OH 43205
Parcel Number: 010-054601-00
Current District: R-3
Applicant: 1659 South Franklin LLC
Attorney: Jon Stevenson, Kooperman Mental Ferguson Yaross, Ltd.

The applicant proposes construction of a detached two-car garage with an additional dwelling unit (ADU) above. The property is currently zoned as R-3, which permits the construction of one single-family dwelling; thus, the revisions to the site plan will require adjustments to the current zoning to allow variances for the proposed development. The applicant, therefore, requests the following variances:

Section 3332.035, R-3 residential district, only permits single-unit dwellings, while the applicant proposes two single-unit dwellings on one lot.

Section 3349.03, Permitted uses, prohibits single-unit dwellings, while the applicant proposes a two single-unit dwellings on one lot.

Section 3332.13, R-3 area district requirements, requires that a single-unit dwelling or other principal building shall be situated on a lot of not less than 5,000 square feet in area, while the applicant proposes two single-unit dwellings on a lot that contains 5,955± square feet, or 2,977± square feet per dwelling, pursuant to the lot area calculation in Section 3332.18(C).

Section 3332.05, Area District Lot Width Requirements, requires that no building be erected on a lot with a width measured at the front lot line of no less than 50 feet. Existing Council Variance No. CV95-049 allowed the width of the lot to be reduced to 40 feet. Therefore, applicant proposes to maintain this variance in this respect;

Section 3332.19, Fronting, requires each dwelling or principal building to front upon a public street. The applicant proposes that the detached garage and additional dwelling unit front upon the alley/private street, as described in the attached Site Plan; and

Section 3332.27, Rear yard, requires that each dwelling provides a rear yard of no less than 25%; the applicant proposes 28.2% for the single-family dwelling and 0% for the carriage house.

Section 3332.38(F), Private Garage, requires that the private garage not exceed one-third of the living area of the single-family dwelling, or 720 square feet, whichever is greater. The applicant proposes a private garage of 723 square feet.

Applicant respectfully submits that the requested variances are warranted for this specific lot, will not seriously affect any adjoining property or the general welfare.

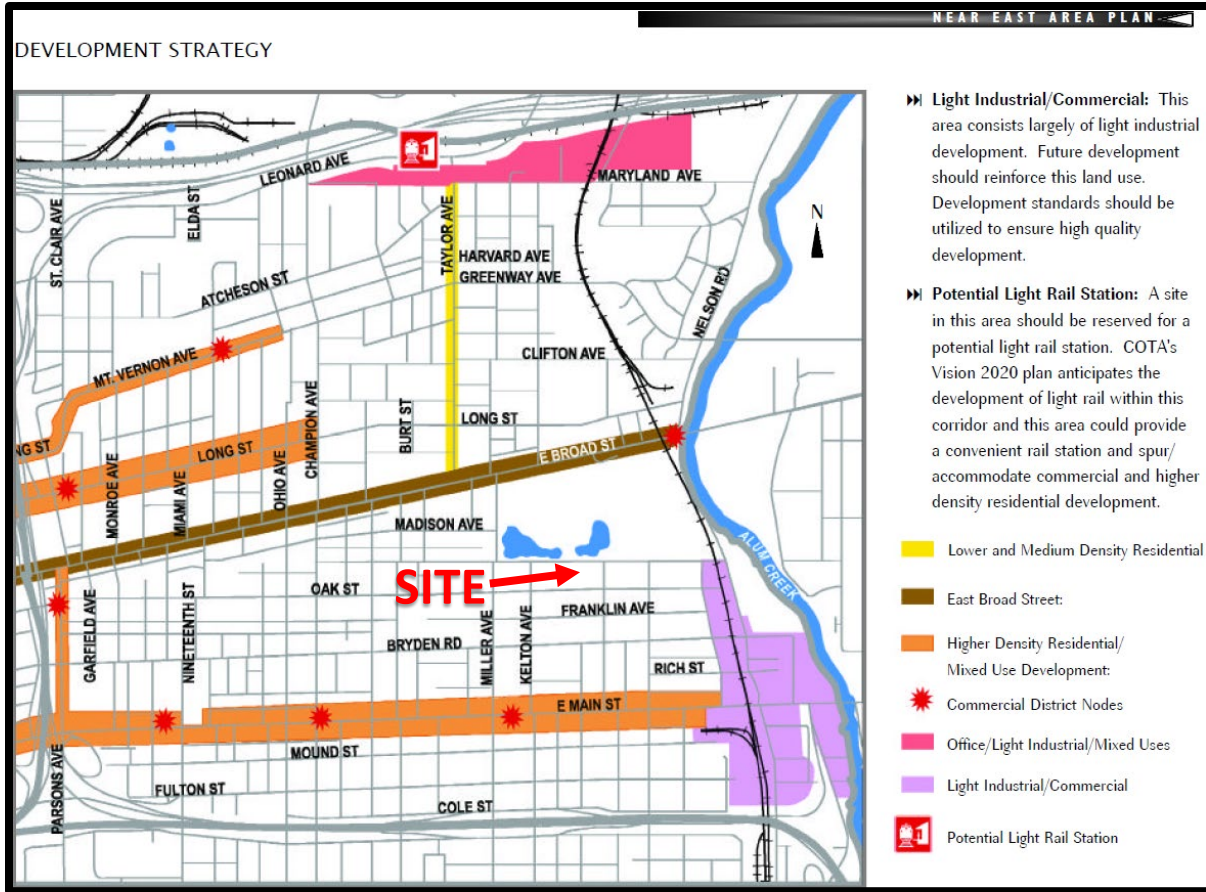

Respectfully submitted,

Jon Stevenson
