Attachments: Semi Tractor Compost 2016 Budget. 9.3.2015.docx

Fleet approves this specification

Please make sure to add the BT that will come out of service when legislated.

3.3.5 **Front Axle, Springs, Suspension:** Minimum of 14,000 pounds rated or as required for the vehicle configuration with heavy duty shocks and hydraulic power steering. Front spring rating minimum of 14,000 pounds or as required for the vehicle configuration

Do you think this is OK. I have made this change to the attached spec.

Thanks, Kevin

Subject: Semi Tractor Compost- 2016 Budget

Kevin,

Please see attached Specifications for the Semi-tractor to be purchased at Compost in 2016. This semi will replace BT21414 (see attached email from Central Fleet). The purchase of this semi is contingent on the passage of the 2016 budget. I have been informed by DPU Fiscal to get this bid in the process now so that when the passage of the 2016 budget occurs in early 2016, the bids and associated paperwork can already be done and the Award can occur in early March 2016. Please contact me if you have any questions. Thanks.

Brandon D. Fox
