- 5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

Replacement of large diameter valves (24” through 48” diameter) and associated work including linestops, and such other work as may be necessary to complete the contract in accordance with the plans and specifications.

The Community Planning Area is “N/A” since work will be throughout the City of Columbus.

- 6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Contract work is required to be completed in a manner acceptable to the City within 550 days from the date that a Notice To Proceed (NTP) is given by the City. The City anticipates issuing a Notice to proceed on or about July 15, 2017.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

This project involves repairs to valves on critical large diameter water mains and will improve the reliability of the water distribution system. There was coordination with stakeholders, including a hospital and large commercial customers, during design and this coordination will continue through construction.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The bid amount and proposed award amount is \$4,066,694.40, including a 15% construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.
