

# Keoni Fleming

**AIA, NOMA, LEED AP**

Principal

## About

Keoni offers Schooley Caldwell clients a well-rounded background, having filled various roles on numerous complex, highly visible projects. He has worked as a Lead Designer, Project Manager, Project Architect, and Construction Administrator; this experience with all facets of design and construction means that he brings a holistic, well-informed approach to each project, understanding how early decisions affect construction, as well as how construction considerations should inform building designs.

In addition to practicing architecture, Keoni is an Adjunct Professor at The Ohio State University's Knowlton School of Architecture, where he teaches Building Construction and Introduction to Environmental, Mechanical, and Electrical Systems in Architecture.

## Select Projects

### Hocking Hills Lodge and Conference Center, Logan, Ohio

Project Manager | New 73,000, 81-room lodge and conference center that uses a heavy timber structure. Recreation and gathering spaces, a restaurant/bar, and meeting space are hallmarks of this new facility.

### Campbell Hall, The Ohio State Univ., Columbus, Ohio

Project Manager | Working closely with EVOKE Studio Architecture, this transformative project is a complete renovation for the College of Education and Human Ecology. Primary goals are to expand wet and dry labs, create a new test kitchen, develop event space for 250 people, create active learning classrooms, update systems, and update the exterior.

### Barnett and Marion Franklin Branch Libraries, Columbus, Ohio

Project Manager | Public engagement was a critical part of the programming process as these two branch libraries are in underserved areas of the community. Working closely with EVOKE Studio Architecture, the 12,300 SF Barnett branch is being renovated and a 15,000 SF addition designed. The new Marion Franklin branch is planned to be 10,000 SF.
