ITT Information Systems, a division of ITT Corporation  
Annapolis Junction, MD 20701

## **Sole Source Justification** **Citadel II (AN/PLT-4)**

The Citadel II (AN/PLT-4) has been identified under the FBI's National Electronic Countermeasure (ECM) Program as one of the approved for purchase units available to State and local public safety bomb squads to provide ECM capability to defeat Radio Controlled Improvised Explosive Devices (RCIEDs).

The Citadel II was developed and manufactured under sole source contracts with the Department of the Navy and as such ITT is the sole source provider – through its Information Systems Division in Annapolis Junction, MD - of the Citadel II to the U.S. Government and to State and local public safety bomb squads.
