5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

The purpose of this project is to construct necessary improvements to the water distribution system in the Little Avenue Area. The improvements identified in the scope of work will replace mains that have high break histories and require frequent maintenance. This project consists of thirteen (13) project sites including Little Avenue, Garling Avenue, Ransburg Avenue, Geneva Avenue, Wilson Drive, Scott Road, Jackson Road, Rosemont Avenue, Searles Avenue, Laurel Avenue, and Linnet Avenue for a total of 16,800 feet of new six- (6) inch and eight- (8) inch water line.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The duration of the design phase for this project is 16 months. Part of the Engineer's contract is to provide Record Drawings after the construction of this project. Therefore the Contract completion date can not be determined at this time.

7. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

Design Fee: \$279,256.41  
No future phases are expected.
