

BIO

Gregory Nutter has been a 27-year resident of Clintonville. Residing on the current bike path, you will often see him, husband Michael and their golden retriever Bailey sitting on the front porch. Having grown up in a small town, being a good neighbor and helping whenever you can, when needed, was always appreciated. Community service, diversity, small town appeal, great neighborhoods, green spaces were what drew him to Clintonville. Preservation of neighborhoods and park lands are important.

As a retired business manager and business owner, he feels a good balance of business offerings and private businesses make Clintonville a great community. Dedicated to community service is evident in his involvement in his local street association and the Clintonville Historical Association as well as past association with the Clintonville Community Fund.

He looks forward to working with the Clintonville Area Commission and working with neighbors in District 2. Their concerns are his concerns and will be dedicated to help solve them and make Clintonville a better place to live and work.
