

**HCWP Sludge Line Improvements, 690510-100004, CT No. 2236, TSS #908**

**Information to be included in all Legislation authorizing entering into a Contract:**

- 1. The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.**

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>DAX #</u>	<u>City/State</u>	<u>Status</u>
Complete General Construction	31-4366382 – 7/8/21	6056	Columbus/OH	MAJ

- 2. What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Formal competitive bids were opened April 29, 2020.

- 3. List the ranking and order of all bidders.**

1. Complete General Construction \$7,226,426.28

- 4. Complete address, contact name, phone number, and e-mail address for the successful bidder only.**

Complete General Construction Co.

1221 East Fifth Ave., Columbus, OH 43219

Lee A. Guzzo, COB, (614) 258-9515, [lguzzo@completegeneral.com](mailto:lguzzo@completegeneral.com)

- 5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

The Hap Cremean Water Plant (HCWP) sludge disposal line was constructed in the late 1970's to provide an economical means to transfer treatment residuals from the HCWP facility to the McKinley Avenue Quarry. This sludge disposal line continues to be an essential asset to the City's largest water treatment facility. Beginning in 1997, the 12-inch diameter sludge disposal line began experiencing an increase in break frequencies. As a result, the Division of Water (DOW) has conducted several studies and completed various capital improvements to the sludge disposal line. A previous condition inspection completed on 10 miles of the sludge disposal line (under CIP 690538-100001) identified various areas that are in need of replacement.

The project will replace portions of the 12-inch HCWP sludge force main along Morse Road, Bethel Road, and Riverside Drive.

Construction of approximately 13,298 linear feet of open-cut 12-inch force main pipe and associated appurtenances, 217 linear feet of trenchless 12-inch force main pipe and associated appurtenances, 2 air-release valve vaults, sludge handling, and other such work as may be necessary to complete the contract, in accordance with the drawings, technical specifications, and City of Columbus Construction and Material Specifications as set forth in this Invitation For Bid (IFB).

**ORD #1195-2020**

Planning area: "99 - Citywide" since HCWP serves several communities.

**6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

All work shall be substantially complete within 548 calendar days of the Notice to Proceed, with final completion to occur within 699 calendar days. The City anticipates issuing a Notice to Proceed on or about July 1, 2020.

**7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The project is intended to replace sections of a force main known to be structurally deficient. Replacement of these sections will reduce the risk of pipe failures and discharges to the surrounding environment. This project is part of the City's ongoing efforts to maintain a reliable supply of safe drinking water to its customers, which will result in sustainable economic growth well into the future.

**8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The bid amount and proposed award amount is \$7,226,426.28, including a 15% construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$7,226,426.28
Future Anticipated Needs	\$ 0.00
CONTRACT TOTAL	\$7,226,426.28

\*An additional \$2,000.00 will also be encumbered for Prevailing Wage services.

Construction Administration / Inspection will be performed by Hill International.
