5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

Furnishing all labor, materials, equipment, and incidentals as specified and required to provide for the installation of well pumps, motors, electrical equipment and ancillary items at Collector Well-103, relocation of power distribution line and phone cable and other such work as may be necessary to complete the contract in accordance with the plans and specifications set forth in the Bid Submittal Documents.

Planning area: N/A (plant-specific project)

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The work under this contract shall be completed in a manner acceptable to the City within 425 calendar days after the date of the Notice to Proceed.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

This project will address aging water supply components which are beyond their useful life. The pumps and motors are over 30 years old, and are showing significant corrosion and metal breakdown of the submerged portion which have been rebuilt over the years. Failure of any of these components could result in reduced plant capacity which could be critical during high demand periods.

Completion of the project will maintain customer reliability and improve pump performance, efficiency and capacity. Increased efficiency translates into increased energy savings and a reduction in maintenance costs.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

Cost summary:
