5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

Planning Area – 10 (Clintonville)

This project involves lining sanitary laterals using Cured-In-Place Pipe (CIPP) technology and redirection of roof laterals to prevent excess stormwater from entering the City's sanitary sewer system. No future phases are expected at this time.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

***For construction contracts:**

Contract work is required to be completed in a manner acceptable to the City within 365 days from the date that a Notice To Proceed (NTP) is given by the City. No future phases are expected at this time.

7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.

This project is a Consent Order project and is an improvement identified in the Integrated Plan and 2015 WWMP Update Report. The project is needed to mitigate water in basement events and sanitary sewer overflows to the goal of a 10 year Level of Service (LOS). Public meetings were conducted to solicit public input regarding the project, and descriptions of the work associated with this project were included on the City of Columbus website.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

The bid amount and proposed award amount is \$5,629,087.75, including a 10% construction contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:
