

CITY

STATEMENT OF HARDSHIP

**Chapter 3307 of the Columbus Zoning Code
Section 3307.10 Variances by City Council**

- A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance requested as detailed below:

The current M-2 zoning at the subject site does not permit the proposed multi-family use. The proposal is for a multi-family development of 100 units, 60 on the north side of Chantry Drive and 40 on the south side. A council variance was previously granted for this property, CV02-070, to permit 80 units. This request is to utilize the remaining property for 20 units. The applicant is also requesting a reduction in required parking to 3/4 of the parking space per unit, which reflects the code parking requirement for housing for the elderly. The grant of these variances will not impair on adequate supply of light and air to the adjacent properties, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.
