Mr. Jonathan Lee
Assistant Director (Fiscal)
City of Columbus
910 Dublin Road
Columbus OH 43215

Dear Jon,

Thank you for your 2016 support of the Water Environment Research Foundation (WERF). We are deeply appreciative of City of Columbus's commitment; your support and involvement are critical to the success of our research.

My goal, and that of our Board of Directors, is to build upon these programs to accomplish much more. To do that, we need your help. At our Board of Directors meeting in December, the Board approved our strategic plan and dues structure for 2017. The dues structure adopted for City of Columbus remains the same as your 2016 dues amount. We have, however, asked for a one-time donation to build up the principal of the Foundation's Water Quality Endowment. The intent of this is to ensure the continuation of our successful annual Paul L. Busch award.

Your invoice is attached to this letter. Please feel free to contact Amit Pramanik (apramanik@werf.org or, 571-384-2101), or me, if you have any questions or concerns. We look forward to our continued collaboration with you in our research efforts. We encourage input on how WE&RF research has helped your agency – for instance – operational efficiencies, cost savings, water quality improvements, etc. Once again, we appreciate your support and look forward to making great strides in providing exceptional water quality research in 2017 and beyond.

Sincerely,

Melissa L. Meeker
Chief Executive Officer
