2. **What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Requests for Proposals (RFP's) were opened on January 26, 2018.

3. **List the ranking and order of all bidders.**

1. PRIME AE Group
2. GS&P / OH, Inc.
3. Stantec Consulting Services
4. EMHT, Inc.
5. Osborn Engineering Co.
6. GRW Engineers, Inc.

Note: The RFP included three (3) projects and the top three (3) ranked firms were selected for these projects. The Division of Water determines which projects were to be awarded to each of the top 3 ranked firms. Stantec Consulting Services was selected for the Chestershire Road Area Water Line Improvements project, CIP 690236-100098, Contract 2122.

4. **Complete address, contact name, phone number, and e-mail address for the successful bidder only.**

Stantec Consulting Services, Inc.
1500 Lake Shore Drive, Suite 100, Columbus, OH 43204
Lucas Murry, PE – Project Manager, (614) 486-4383, luke.murry@stantec.com

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

The purpose of this project is to construct necessary improvements to the water distribution system in the Chestershire Road Area. The improvements identified in the scope of work will replace or rehabilitate water lines that have high break histories and require frequent maintenance. This project includes replacing or rehabilitating approximately 8,825 L.F. of 6" and 8" water lines. The streets include Chestershire Road, Eakin Road, Derrer Road, Race

Street, Mark Place, S. Roys Avenue, Edwin Street, Whitethorne Avenue, and Midland Avenue.

This project is located within the Hilltop Planning Area.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The duration of the design phase for this project is 16 months. Part of the consultant's scope of work is to provide record drawings after the construction of this project is completed. Therefore, it is estimated that the end of this agreement will occur in early 2021.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The goal of this project is to replace or rehabilitate the existing 2", 6", and 8" water lines that have a high break frequency. Replacement of these water lines will improve water service, decrease burden on water maintenance operations, and reduce water loss. The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The proposed agreement amount is \$236,786.41, including a 15% contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$236,786.41
Future Anticipated Needs	\$ 0.00
CONTRACT TOTAL	\$236,786.41
