Stantec Consulting Svcs.	11-2167170 - 9/7/19	0462	Columbus, OH	MAJ

2. **What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Requests for Proposals (RFP's) were opened on January 26, 2018.

3. **List the ranking and order of all bidders.**

1. PRIME AE Group
2. GS&P / OH, Inc.
3. Stantec Consulting Services
4. EMHT, Inc.
5. Osborn Engineering Co.
6. GRW Engineers, Inc.

Note: The RFP included three (3) projects and the top three (3) ranked firms were selected for these projects. The Division of Water determines which projects were to be awarded to each of the top 3 ranked firms. PRIME AE Group was selected for the Ziegler Avenue Area Water Line Improvements project, CIP 690236-100096, Contract 2120.

4. **Complete address, contact name, phone number, and e-mail address for the successful bidder only.**

PRIME AE Group, Inc.
8415 Pulsar Place, Suite 300, Columbus, OH 43240
Sutha Vallipuram, PE – Project Manager, 614-839-0250, vsutha@primeeng.com

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

The purpose of this project is to construct necessary improvements to the water distribution system in the Ziegler Avenue Area. The improvements identified in the scope of work will replace or rehabilitate water lines that have high break histories and require frequent maintenance. This project includes replacing or rehabilitating approximately 12,955 linear feet of 6-inch, 8-inch, and 12-inch water lines.

This project is located within the Far South Planning Area and includes the following streets: South High Sreet, Ziegler Avenue, Schryver Road, Cullman Road, Landers Avenue, Kail Avenue, and Eastman Avenue.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The duration of the design phase for this project is 18 months. Part of the Consultant's scope of work is to provide record drawings after the construction of this project is completed, therefore, it is estimated that the end of this agreement will occur in early 2021.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The goal of this project is to replace or rehabilitate the existing 6-inch, 8-inch, and 12-inch water lines that have a high break frequency. Replacement of these water lines will improve water service, decrease burden on water maintenance operations, and reduce water loss. The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The proposed agreement amount is \$272,033.29, including a 15% contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$272,033.29
Future Anticipated Needs	\$ 0.00
CONTRACT TOTAL	\$272,033.29
