Jim, Fleet approves the specification. I believe City Council would have to approve the trade in equipment.

James,

We will be trading in BT 12093, Clark Forklift Model GPS 20MB,

I'm not sure why it's showing up retired. We have it and are still using it.

**D. Russell Allen**

Russ,

Mr. King is asking what your trade is. Are you trading in BT-12093 on this new unit? The reason it is being questioned is because BT-12093 is showing up in our Fleet system as already being retired with the assumption that your plant no longer has it.

Thanks,  
Jim
