5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

The project will abandon existing transite pipe in the water distribution system and replace with new ductile iron water main at various locations throughout the city. There is approximately 9,065 linear feet of transite pipe that will be replaced. There is also a project site containing small diameter mains within a condominium complex that will be replaced. Extensive coordination will be required to reconfigure the existing water services and meters for the condo units in this complex. This project will also require the preparation of easements for certain locations.

The project falls within multiple planning areas, including the Clintonville Planning Area, North Linden Planning Area, Northeast Planning Area, and the Rickenbacker Planning Area.

ORD NO. 2889-2017

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The duration of the design phase for this project is 18 months. Part of the Engineer's contract is to provide Record Drawings after the construction of this project, therefore, the contract completion date cannot be determined at this time

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The goal of this project is to replace existing transite pipe within the water distribution system and reconfigure existing water services as needed. Replacement of these water lines will decrease the burden on water maintenance operations and improve customer service. The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The bid amount and proposed award amount is \$401,766.92 including a 15% design contingency amount that will be utilized to fund needed and approved changes in the work. No contract modifications are anticipated at this time.

Cost summary:

Original Contract	\$401,766.92
