United Survey Inc., Cleveland, Ohio 44146| Active Majority Status

A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

This project is located in Clintonville and has been proposed for rehabilitation as recommended in the overall Clintonville Inflow and Infiltration study conducted under CIP 650405.2. This project will rehabilitate approximately 15,579 lineal feet of 8-inch through 15-inch clay sewers. Manholes will also be rehabilitated to help reduce inflow and infiltration entering the sanitary sewers. In addition, this contract also includes \$6,600.00 for storm sewer improvements on Fairway Drive.

A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

The contract will be initiated in January of 2007 and will continue until the work is completed.

The contractor will have 270 days to complete the contract without financial penalties.

An estimate of the full estimated cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

The bid amount and proposed award amount is \$903,432.00, which includes a 10% construction contingency amount that will be utilized to fund any needed and approved changes in the work. No contract modifications are anticipated at this time.
