STATEMENT OF HARDSHIP

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A. Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

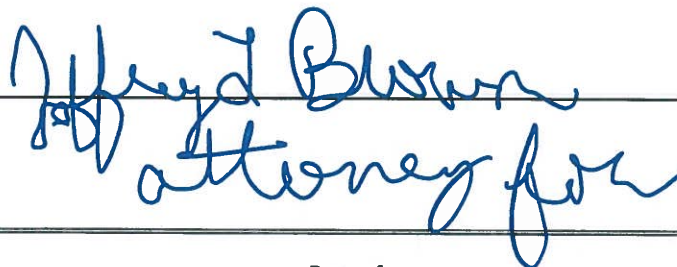

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Hardship statement multifamily at Easton

CV19-121

The applicant wants to be able to have first floor residential in mixed use buildings or to have entire residential buildings (section 3361.02 Permitted Uses and section 3356.03 C-4, permitted uses) at Easton with a maximum density of 100 units per acre with a reduced parking ratio of 0.75 parking space per unit(section 3312.49 Minimum numbers of parking spaces required). The residential buildings will be subject the setbacks contained in the zoning text for this property. The Easton development is a large mixed use development providing office jobs as well as retail, restaurant and entertainment options. The existing Easton zoning allows residential above first floor commercial. More people and employers want to be near retail and entertainment opportunities whether it is to work or to live. The residential use will allow people to be close to work and to shopping. By being close to your work, and having the availability of COTA transit station and Easton's bus system the need for an automobile is reduced and therefore the need for residential parking spaces. The residential use and the reduction in parking will not adversely affect the surrounding properties or the surrounding neighborhood.
