1342 East 16th Ave

Columbus, OH 43211

## Profile

I have lived in the Linden neighborhood my entire life. Growing up here has shaped my understanding of the importance of community, environmental health, and equitable access to resources. I am interested in serving on the Area Commission to support thoughtful development, sustainability efforts, and initiatives that improve quality of life for residents of all ages. I am committed to helping ensure that growth in Linden reflects the needs and voices of the community.

## Experience

Currently Freelance Landscaper – Columbus, OH

Provided landscaping and maintenance services, including plant care, garden upkeep, and site improvement projects.

Former Graduate Teaching & Research Assistant – The Ohio State University

Supported environmental science and soil science courses, assisted with lab coordination, and helped students understand environmental concepts. Conducted research on urban soil health and community well-being.

## Education

**Master of Environmental and Natural Resources- The Ohio State University**

**Bachelor of Science in Agricultural Sciences (Sustainable Plant Systems, Specialization Horticulture) -The Ohio State University-**

## Memberships and Affiliations

**Environmental Professionals Network Member**

Supports these professionals at both private and public settings by providing a forum for information sharing, informative educational programming and networking opportunities. EPN also supports students, helping them grow professionally and to be inspired, and to help inspire others. The EPN covers a broad range of topic areas, from air quality to wildlife.

**Volunteer: Green Columbus**

Green Columbus is dedicated to creating a more sustainable and resilient Central Ohio by empowering individuals, businesses, and communities to take environmental action

**Greater Mt. Calvary Church Member (2000-present)**

Collaborate with church and community leaders to advocate for social justice, public health awareness, and environmental stewardship in the local area.

**Multicultural Students in Agriculture, Natural Resources and Related Sciences (MANRRS), Alumni** Columbus OH, 2017-2020

Develops leaders in agricultural and environmental sciences by encouraging academic excellence and increasing the number of under-represented students in these fields, while aiding in professional placement.

**Publication**

Bush, Danielle. Possible connections between urban soil health and community wellbeing; A case study of the Linden neighborhood, of Columbus, Ohio. 2024. Ohio State University, Master's thesis
