STATEMENT OF HARDSHIP

Chapter 3307 of the Columbus Zoning Code
Section 3307.10 Variances by City Council

- A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of Public Streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance requested as detailed below:

The site was granted a council variance in 1984 (#912-84) which provided for one use within the existing single family structure. The owner/applicant would like to expand the list of permitted uses that would be allowed to operate on the property. The area along Olentangy River Road has changed over the last 30 years and the addition of additional C-2 uses for th site is appropriate. The list of uses requested in this case is carefully considered to issue that surrounding properties are not negatively impacted and that the home and yard maintains it single family character. The site's exterior will remain unchanged and will be served by 13 surface parking spaces and two (2) located inside the garage for a total of 15 parking spaces.

The additional uses will not harm surrounding values and is not in contravention of the comprehensive plan.

Jack,

The Far Northwest Coalition approved your request to amend the Council Variance for the property located at 7801 Olentangy River Road to allow additional permitted uses as presented. The FNWC would echo the prohibition of a call center being located on the subject property. Please let me know if you have any questions.

Thanks,
John Murley
