RE: NOTICE TO COUNCIL FOR CONSTRUCTION SERVICES

DATE: July 18, 2012

This memorandum is to serve as notice to City Council for a project for which construction services are needed. The project for which these services are being sought is **Security Enhancements – Hoover Dam Improvements, Contract No. 1066, Part 1, Project No. 690479**. Due to the secure nature of this project conventional Chapter 329 processes for awarding construction service contracts will not be used and the process provided for as described in the attached “Request for Construction Contractors to Submit Statements of Qualifications in Advance of Bid” shall have control over any conflicting provisions of Chapter 329. Prior to the award of the contract, DPU will request waiver of the applicable provisions of Chapter 329. Also attached is the “Invitation for Bids”.

If you have any questions, please contact Richard Westerfield at 645-7020 or me at 645-6141 at your convenience.
