RE: Declaration of Emergency
Sylvan Avenue Bridge Replacement
City Bridge Rehabilitation – Sylvan Avenue
Capital Improvements Project No. 530301-100008
Cost: \$338,765.35

Dear Mayor Coleman:

I have determined that it is necessary to immediately replace the bridge on Sylvan Avenue over Dry Run, located in a neighborhood on the west side of Columbus. Engineering personnel from the Division of Planning and Operations, along with bridge consultant GPD Associates, performed an inspection of the bridge on May 24, 2010. This field examination found further deterioration of the beams and a critical scour condition in proximity to the bridge foundation. Upon the recommendation of Administrator Patti Austin, P.E., I ordered the bridge closed for vehicular and pedestrian traffic on May 25, 2010, under the authority granted this office through Section 2105.03 of the City of Columbus Municipal Code.

This department requested and received funding within the FY2010 Capital Improvements Budget for this bridge replacement project. However, due to the complete closure of this roadway, the department has undertaken an informal, competitive procurement effort, and opened sealed bids from four contractors on June 10, 2010. The Conie Construction Company was found to be the lowest, best, and most responsive and responsible bidder, based upon an evaluation of the bids received.

In accordance with Section 329.27 of the City of Columbus Municipal Code, and your authority as Mayor of the City of Columbus, I respectfully request this situation be declared an emergency affecting the public peace, health, safety, welfare and property, and requiring extraordinary measures for its resolution.

In order to facilitate this emergency bridge replacement, I additionally request the authority to enter into a contract with the Conie Construction Company, in an amount of up to \$338,765.35. It is expected that this work will be complete within 90 days of the contract award, which will be executed immediately following the issuance of this declaration.

The Division of Planning and Operations will provide funding for these services from the Street Construction Maintenance and Repair Fund No. 265; OCA 591108, OL3 3, OL3 3336, until such time as an ordinance can be prepared and submitted to City Council authorizing the appropriation and expenditure of available capital funds.

I respectfully urge this Declaration of Emergency. If you have any questions regarding this matter, please contact me at your convenience.

Sincerely,

Mark G. Kelsey
Director
