RE: Esri Sole Source Justification for Geographic Information System Software

This letter confirms that Esri is the sole-source provider of Esri products and related maintenance services in the U.S. commercial, state, and local government marketplace, subject to the disclosures set forth below.

Esri has authorized certain resellers to resell sole source products, including Esri enterprise agreements, to state agencies of the State of California only under the California Software License Program (SLP). Esri distributes Esri software licenses and maintenance in combination with non-Esri hardware, software or services through open-market value-added resellers, system integrators and OEMs. Esri also distributes Esri software licenses, subscriptions, and subscription renewals separately or in combination with non-Esri software or services through resellers to customers that provide architectural, engineering, and construction services. On request, Esri will provide open-market quotes for Esri products and maintenance to pass-through customer-designated resellers.
