# Francie Henry

Regional President at Fifth Third Bank  
New Albany

## Summary

As Regional President for Fifth Third Central Ohio, I am passionate about improving the lives of our clients. I enjoy learning about their lives, goals and aspirations. I consider it a great honor that they have chosen Fifth Third and our team of advisors to build and grow their businesses and preserve their wealth. My job is to remain curious, listen and advise so we can provide the framework and financial plan that allows them to be architects of their own vision.

In my leadership role here at Fifth Third, it is vitally important for me to empower my team to remain curious. To ask questions that allow us to understand what is really important to our clients. Once we understand, we can assist them in forming a game plan that allows them to make meaningful and smart decisions that affect the lives of the people, places and things they care most about.

Whether I'm working with a client or mentoring my team of advisors, my approach as a leader is to inspire, motivate and encourage; this is what shapes the way I lead and live. I communicate these values to my team by:

- exemplifying the highest level of integrity
- provide vision for our Brand
- genuinely care and support individuals
- set high standards and continue to raise the bar in all aspects of our business

As the daughter of Greek immigrants my parents inspired me to work hard, treat everyone fairly and help those less fortunate. These lessons have inspired me to sit on boards and volunteer for community causes, including education, health and human services and women's initiatives. I also enjoy staying active and spending time with my family.

Specialties include: wealth management, investment solutions, retirement planning, retail banking and team building.
