Subject: Refuse Equipment Authorization - Pete/Labrie Minimax 220 Cabover Diesel ASL

Hello Deryl.

Per our conversation yesterday, Refuse would like to purchase two (2) Pete/Labrie Minimax 220 Cabover Diesel ASL (see attached). These are smaller ASL's that can be utilized in areas of the City where the larger CNG-ASL trucks cannot operate. There is an opportunity to purchase two units

from Best Equipment that will be available next month. As you are aware, the bid process, and subsequent production→delivery times for new vehicles are very lengthy, and these particular units are needed immediately to replace existing and/or aged units in the field.

OSS-Director's Office and the Refuse Administrator have approved this purchase. If Fleet approves, I will draft the required legislation to authorize the purchase.

Thank you sir,
-Pete
