Subject: Digger Derrick Specs

G'Afternoon John,

Attached are the revised specs for the Digger Derrick. We bid this out but received only one bid that was judged to be non-responsive. This required two minor changes to the body portion of the specs, specifically to 3.3.2.11 and 3.3.2.12 dealing with digger hanger bracket and hoses. We asked for insulation but apparently it is no longer offered.

Please review and approve as necessary. I have attached the previous specs for comparison purposes. Of note, the Purchasing Office changed the numbering sequence after you approved them the first time.

Thanks, Jerry
