STATEMENT OF HARDSHIP

CV20-077

Chapter 3307 of the Columbus Zoning Code

Section 3307.10 Variances by City Council

A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.

B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are discovered after your application is approved, a new application will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Please see attached separate page for list of variances and statement of hardship.

183 Alexander Alley
Zoning R-2F
List of Requested Variances

Request a variance from Section 3332.38(H) (private garage) to allow for habitable space in a garage to not be connected directly to habitable space within the single-unit dwelling.

Request a variance from Section 3332.38 (G) (garage height) to increase the height of a detached garage from 15'-0" to 20'-7".

Statement of Hardship:

The property at 183 Alexander Alley consists of an existing house at the west side of the property and an existing accessory structure at the east side of the property. The first floor of the existing accessory structure is used as a garage for two vehicles and the second floor is currently used for storage.

The property owners would like to convert the existing storage space at the second floor into a guest suite consisting of a bedroom space with closet and full bathroom. The guest suite would accommodate family when visiting from out of town. The only access into the guest suite would be from the rear yard.

The variances listed above would allow for habitable space with the existing detached accessory structure.
