Subject: FW: Specification Approval

The Division of Sewerage & Drainage wishes to purchase on Cues step van mounted TV inspection system in accordance with State of Ohio STS 670 Contract 800001. Quote is attached. This unit is used to televise underground sewer pipes throughout the city. The information is downloaded daily to a server for engineers' review.

We believe it is in the best interest of the Division to purchase this equipment utilizing state contract pricing. The Division currently operates 5 Cues inspection trucks.

Another manufacturer would not be compatible with the software, camera, and transporter equipment that is shared between the trucks.

The Division has a factory trained Electronic Systems Technician that repairs the Cues electronics, cameras, and transporter equipment.

Division Telemonitoring Operators are also factory trained to operate the Cues trucks and perform repairs.

An identical unit was purchased in 2008 at a price of \$212,933.70

Per Sean Fouts approval of use of the contract we would like to proceed with the purchase.

Thanks
Mike

Any chance of CNG or other alternative for this?

John

Mike, Frank asked that I forward this Quote to you. The Quote is from Ohio State Contract. Please let me know if you have any questions. Thanks and I heard nobody was injured in the accident; that is good news.
